Greetings Russ,

Yes, the 11 am Pacific time for a call on June 2, 2017 is good.

Thank you for your courtesies.

Best,
Carmen

Hello Russ,

Thank you for your email.

Yes, we can talk on Friday June 2. Let me know what time is good for you on that day. The purpose of the call is to summarize where the project stands at this time. I propose that we also schedule a future meeting with CBS' technical / remediation consultant and DTSC to resurrect the project and plan next steps including a schedule for the project. In addition, I propose a second future meeting that includes Hager Pacific to update them on the path forward and get their input on next steps for the project.

Please let me know what you think of the above proposal and about any other thoughts or ideas to restart the project.

Thank you for your courtesies.

Best,
Carmen

Hi Carmen, I am the project manager for now until we find a replacement for Leo. I am available to talk anytime this Friday. Let me if that works for you.

Regards,
Russ

Hello Russ,

I have not heard from CBS regarding the cleanup of the former Westinghouse facility building. We need to get back on track. Please propose times and dates that are convenient for you to have a call during the week of May 29, 2017. I would like to find out where the project stands and the status of the cleanup plan that CBS had begun to develop. CBS had developed an outline for the cleanup plan. CBS and EPA discussed the initial draft of the outline and the current owner of the property participated in the technical discussions that we had on certain aspects of the draft outline.

I understand that Leo Brausch retired and is no longer a consultant for CBS and that you have been assuming the project manager responsibilities that Leo had. If a new consultant has replaced Leo, please provide his or her name and contact information. If you are still the project manager, your confirmation of the same is greatly appreciated.

Thank you for your courtesies. I look forward to talking to you soon.

Best,
Carmen
